

US 12 – Attalia Vicinity – Add Lanes Four-laning US Highway 12 (Phase 3)

Purpose

Improve Safety, decrease congestion, and enhance economic vitality

Project Description

Add one additional lane in each direction for a total of four lanes and construct a new bridge crossing over the railway

Safety Features

- Limit cross traffic by reducing the number of intersections and private access points
 - Close all access points except Raindance Road, Attalia East Road, and two Boise Cascade trucking center entrances
- Relocate and improve the Attalia Road intersection
 - Add acceleration and deceleration lanes at Attalia Road

Impacts to Traffic

Traffic delays are expected to be minor during the construction of this project

- Two lanes of the highway will remain open during most of this project
- There may be lane closures for work at intersections
- Periodically, brief delays are expected as construction vehicles enter and leave the work area

Project Cost Estimate

Total: \$15.0 million

(Includes engineering, right-of-way, and construction costs)

Construction Timeline

Scheduled start: Spring 2006
Scheduled completion: December 2007

IT'S YOUR NICKEL. WATCH IT WORK.

This project is funded in part by the 2003 Legislative Transportation Funding Package. The main source of funding is a 5¢ increase in the gas tax. The package also includes an increase in the large truck gross weight fee and a 0.3 percent vehicle sales tax.
